22 November 1955

MEMORANDUM FOR: Project Director

SUBJECT: Ramo-Woolridge Field Engineers

25X1A

1. Discussions with [REDACTED] on 17 November regarding System #4 have served to renew the conviction that the contractor should be prepared to furnish up to 4 Field Technical Representatives (in the Ph.D. or M.S. category) to assist and advise the Commo teams during the first six months of field operations with System #4. There is every indication that the equipment and techniques involved will be inordinately complex and will warrant this action. Budget estimates previously submitted have included provisions covering this expense.

2. Accordingly it is requested that the contractor be formally requested to provide this service. [REDACTED] will be pleased to assist the Contract Officer in this matter. 25X1A
